

Celebrate Poetry Across Wisconsin

Bloom: A Season of Poetry

In spring 2024, the Wisconsin Academy will be bringing poetry to communities across the state through special hybrid events. From Poetry & Pi(e) in Eau Claire on March 14 to Poetry and the Natural World with U.S. Poet Laureate Ada Limón in Madison on May 23, Wisconsinities will have the opportunity to expand their literary horizons and consider new points of view.

There are several ways to participate...

Sponsorship

Showcase your commitment to the letters and gain prominent recognition by becoming an event sponsor. Sponsors will be acknowledged in the event program, event webpages, promotional and printed material, and through social media based on the level of commitment.

Host a Watch Party

Share the joy of poetry with your own community by hosting watch parties for these events. Poetry & Pi(e) watch parties are offered for free. Host a watch party for U.S Poet Laureate Ada Limón's event for only \$100.

Attend the Event

Attend these events in person and invite members of your organization and community to attend.
