

# SAVANNA INSTITUTE

*Laying the groundwork for widespread  
agroforestry in the Midwest*

[savannainstitute.org](http://savannainstitute.org)

# AGROFORESTRY

An integrated approach to farming with trees and livestock that can produce many benefits for people and the land.

Healthy, local food

Clean air

Provides wildlife habitat

Diversifies farm income

Sustainable communities

Improves livestock  
comfort

Prevents  
erosion

Purifies water

Sequesters carbon

Captures fertilizer  
and pesticide

# Our Technical Service Process

TSP

## One-on-One Support

*We will work closely with you to build a custom agroforestry plan that will be your roadmap for success.*

Cohort

## Connect with like-minded folks

*You will be a part of a cohort invited to field days, farm tours and workshops.*

Resources

## Learn about Agroforestry

*We will share videos, written materials, and updates about relevant learning opportunities.*

Farm Narrative

## Write a Farm Narrative

*We'll review your goals and ideas so that you can be sure that agroforestry is a good fit.*

Site Visit

## Visit your Farm

*We will walk your property gathering information to help you make sound decisions.*

Budget

## Crunch the Numbers

*We'll help you figure out the finances and guide you to funding sources like the USDA.*

Design

## Develop a Design

*We will create a design showing where everything will go and how it fits in with your existing farm activities.*

Implementation

## Implement your Vision

*We'll create a working plan, a path forward for your farm, and guide you in the implementation process.*
